Magnesium (Mg)	130 mg	43.0
Total Carb.	0 mg	0
Protein	0 mg	0

*Percent Daily Values are based on a 2000 calorie diet.

INGREDIENTS: A proprietary blend of purified water, potassium, phosphate, sodium, chloride, magnesium, bicarbonate, and sulfate.

Suggested use: To dilute, mix 8 oz. in 1 gal. water or milk (3 capfuls per glass). Drink an 8 oz. glass of solution twice a day or as directed by physician. Pour 2-3 capfuls of concentrate into cooked soups, broths, pastas, stews or in any food normally salted. Avoid mixing E-lyte in sugar based liquids and juices.

E-lyte Balanced Electrolyte Concentrate is a dietary supplement that may be used for mineral balancing, preferably as a preliminary approach to nutritional support. E-lyte can replace electrolytes lost as a result of stress, poor diet, exercise, illness, medications, etc. There are no sweeteners or calories in E-lyte. The taste will be salty initially, but will become milder after use indicating your body's change in electrolyte balance.

CAUTION: Children, those with high blood pressure or on sodium restricted diets should consult your physician before use.

Some crystallization may occur. This will not materially affect nutritional value.
