† Daily Value (DV) not established.

OTHER INGREDIENTS: Fish body oil, gelatin, glycerin, water.

Directions: Adults take 2 capsules twice daily with food.

Consumption of omega-3 fatty acids may reduce the risk of coronary heart disease. FDA evaluated the data and determined that, although there is scientific evidence supporting the claim, the evidence is not conclusive.

Professor Malcolm Peet, U of Sheffield UK, reviewing his research on EPA briefly described his earlier study in chronic treatment-unresponsive patients, which showed that EPA as a high EPA/low DHA fish oil (Kirunal) produced a substantial (22%) improvement which was significantly better than that produced by placebo Peet M. 1997*
